Modular stand packages

RAI Amsterdam developed modular stand packages to provide you with a sustainable and cost effective stand.

Many of the elements will be re-used and elements that cannot be re-used are being recycled. This way modular stands reduce the CO2 footprint of the operations by over 45% and reduce the logistics movements by over 50%.

The look and feel of these stand designs are luxurious and the stand has a high visibility because of the included graphics. We advise the modular stand packages up to 50m2.

	Boost Silver	Boost Gold	Impact Gold	Impact Diamond
1 eye-catcher (350 cm high, 200 cm wide) including full colour graphic	✓	✓		
Fully printed back walls		✓		✓
